Parking

As reflected on the above map (dark spaces) street parking is usually available on Verdugo Road in front of the building or on the side of the building on Chiquita Place. There is also parking behind the building and on the immediately adjacent alleyway that fronts the park.

After parking you can enter the building from the front on Verdugo Road (our office is on that same level-no stairs involved) or you can enter the building at the back using the rear entrance and going up one interior flight of stairs to reach the second level.
